

SEAWEEK DISCOVERIES on the EYRE PENINSULA

14th & 15th February
Lincoln Marine Science Centre

Start the year by gaining up to **12.5 hours** of T&D accreditation at a weekend marine education workshop. Due to the immense success of previous MESA teacher workshops in other regions, we are now offering an opportunity for teachers in the Eyre Peninsula region to participate in this fun and unique workshop.

Workshop outcomes:

- Development of content knowledge
- Development of pedagogical processes
- Development of field skills
- Networking with like-minded individuals, NGOs and government representatives
- Increased awareness of regional biodiversity and marine management programs
- Increased awareness of available resources for marine education (including IT)

To assist in developing these outcomes we offer: 3 field trips, including the opportunity to meet a seahorse breeder; presentations on South Australian marine flora and fauna, the Great Australian Bight Marine Park and marine planning; resource session and ICT session.

Cost includes lunch on both days, morning and afternoon teas and a seafood BBQ.

Saturday

Alex Gaut, SA Representative for the Marine Education Society of Australasia

Diane Ancell, Co-ordinator, Ark On Eyre program

Simon Clark, Manager, Great Australian Bight Marine Park

Marine Planning Team, DEH
